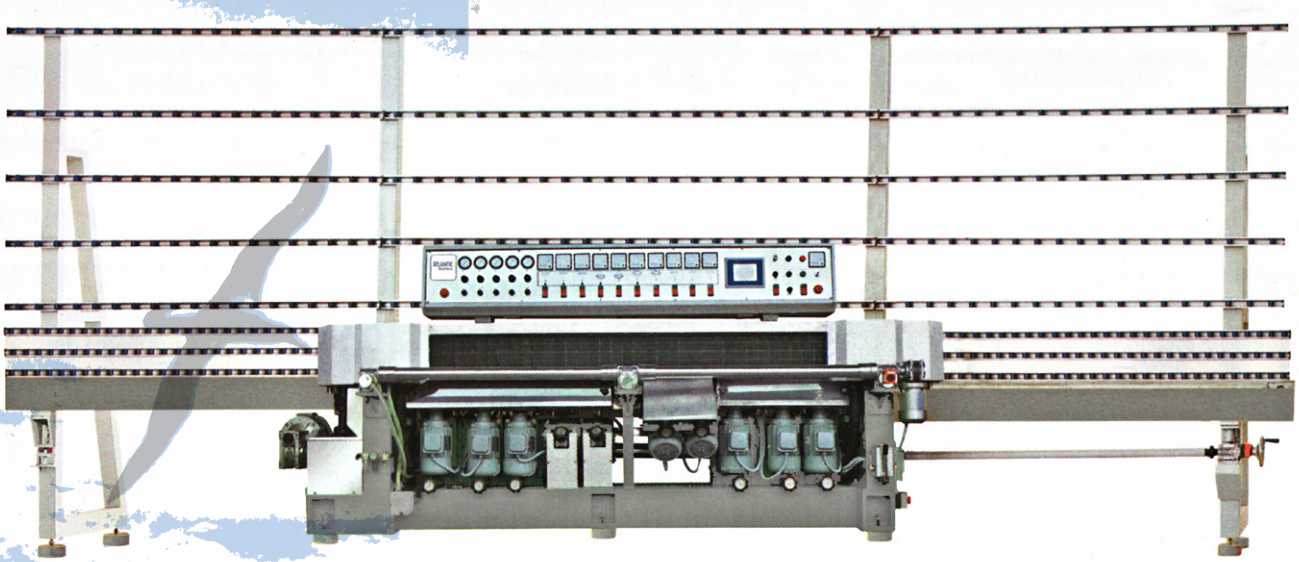
Straight Line Edger ASL10.325A

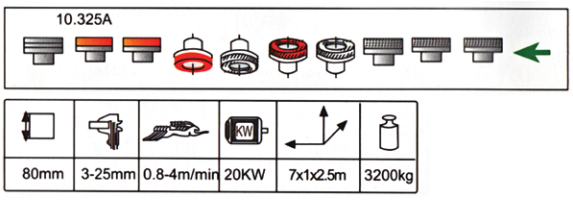
The ASL10.325A 10 spindle edger performs bottom edge grinding and polishing, with a ground and polished arris front and rear. The machine produces a consistent brilliant finish on glass from 3-25mm.

The machine also has a touch screen PLC control unit which automatically controls the polishing heads eliminating periodic adjustments.



Features

- Heavy duty conveyor allows glass to be processed down to 80 x 80mm.
- Conveyor bed motorised via touch screen display.
- 3-25mm glass.
- Speed variable 0.8-4mtr/min.
- Individual polishing pressures adjustable



Specifications

Dimensions:	Height	5000 mm
	Length	7000 mm
	Depth	1200 mm

The company pursues a policy of continual product development and improvement. These specifications may be subject to change, therefore, and shall not form part of any contract.
