

ATLANTIC Machinery

ZK100 Automatic Vertical Glass Drilling Machine

The Atlantic ZK100 machine has top/bottom drill heads, timing relay controller and oil damping technology. Drill centering can be positioned mechanically or by laser. Pneumatic clampers grip glass with adjustable pressure.

The Atlantic ZK100 machine has two working states: automatic process or manual for single cycling. It combines high working efficiency and low glass damage, with easy operation.

- The ZK100 has top/bottom drill heads
- Positioning of the drill centre can be made manually or via laser
- Pneumatic clamps grip glass with adjustable pressure
- Machine works in manual or automatic cycles
- Dimensions: 2600mm W x 1700mm D x 1500mm H
- 4mm to 100mm drilling hole diameter
- 3mm to 40mm glass thickness
- 1000mm throat depth
- Variable speed 550 - 3900rpm
- Minimum size 90mm x 50mm
